TREATMENT REPORT

2020

Condition Upon Receipt: Binding materials deteriorated. Paper acidic, weak, torn, and chipped at edges and folds.

Treatment: Record removed from binding. Presence of tape, staples and or fasteners were removed. Pages surface cleaned. Tears mended with Japanese tissue or filmoplast® R heat set tissue. Pages deacidified by application of magnesium oxide. Sheets encapsulated in archival grade PET polyester envelopes. Volume bound in quality record binder.

Services are tailored to the specific page and/or volume and are utilized as appropriate following testing.
